Where are we? We are in the city of Houston, the 4th largest city in the United States. Houston is the belly of the beast, the bowels of the empire. It is the home of the Political Family which controls our country, and the seat of the oil economy that creates sprawl, pollutes our air, water and bodies, dictates a neo-colonial strategy of conquest for petroleum in the middle east, and wages a campaign of violence against the people who live atop oil reserves in the global south. The decisions made the elite class here in Houston, whether it is the Baker Institutes schemes of wars to secure pipelines in Central Asia, Maxxam's board deciding to clearcut the redwoods, Shell murdering environmental activists in Nigeria, Halliburton's war profiteering in Iraq, Enron writing the national energy policy or the Bush family's lobbying for the Carlyle Group in the middle east, have a huge destructive impact on people and ecology the world over. The luxuries that are enjoyed by some in Houston are made possible only by the widespread injustice of this economic system that is essentially the domination of global capital over our lives. This system exploits and alienates the vast majority of us in Houston, into either living in poverty or submitting to the dreary existence of wage slavery.

If you agree with the sentiments of this journal, you are probably eager to escape Houston, or have found some glimmers of a chance that change is possible. The Alarm desires to be a beacon of hope in this city, and tries to illuminate and publicize the work of organizations that are doing work towards making a better healthier world.

The Alarm is a journal which seeks to both provide a portal into the local groups struggling for social, environmental, and economic justice, as well as boldly present the ideas of the People's Global Action Network (PGA) as a framework for the radical movement building in Houston and across the globe.

PGA is the network that put out the call for global actions against the 1999 World Trade Organization ministerial meeting in Seattle and includes hundreds of organizations ranging from peasant movements in Brazil and India to labor unions in Argentina and Canada, indigenous peoples, farmers, fisherfolk, immigrants, squatters, environmentalists, anarchists, autonomists, and rebels from every continent, united by a set of shared principles (see the last page). It remains a fulcrum of resistance, even as it is engaged in a process of reformulation now that global elites have reacted to our movements' successes by trying to plunge the world into a nightmare of war and genocidal violence. *The Alarm* views the development of local radical organizations in this framework as crucial for the task of creating a better world from the grassroots up, starting in the heart of the empire.

The Alarm is planning on producing this zine on a quarterly basis. We need submissions from local groups to make this possible. We want to make space for groups to inform the community what they are working on, and reflect on the work that they have done. We welcome submissions from any group in the Houston area that is in agreement with the Peoples Global Action Hallmarks. *The Alarm* accepts submissions of digital files (jpg, pdf, psd) or hardcopy(ie paper) , and we strongly encourage you to format your submissions yourself to look the way you want. Please feel free to bounce ideas off of us about what kind of content you would like for your submission. In addition to submissions from groups, we would love submissions of art, and be interested in brief critiques or plugs of certain aspects of the radical movement in Houston, and other stuff that would be of interest to radical folks in town.

The Deadline for submissions on issue #2 is Friday May 20th, which we hope to have complete by June 1st.

HALLMARKS OF PEOPLES' GLOBAL ACTION:

1. A very clear rejection of capitalism, imperialism and feudalism; all trade agreements, institutions and governments that promote destructive globalization.
2. We reject all forms and systems of domination and discrimination including, but not limited to, patriarchy, racism and religious fundamentalism of all creeds. We embrace the full dignity of all human beings.
3. A confrontational attitude, since we do not think that lobbying can have a major impact in such biased and undemocratic organizations, in which transnational capital is the only real policy-maker.
4. A call to direct action and civil disobedience, support for social movements' struggles, advocating forms of resistance which maximize respect for life and oppressed peoples' rights, as well as the construction of local alternatives to global capitalism.
5. An organizational philosophy based on decentralization and autonomy.

Estimado insurgente habla hispana:

Al principio queriamos hacer una version de esta lanzine en español, pero despues de mucho consideracion, pensamos que la mayoria de estos rescursos son casi exclusivamente en ingles. Y no sera tan util para gente en la comunidad habla hispana. Reconocemos que esta barrera es una problema que nos afecta en toda la comunidad radical de Houston. Queremos apoyar el desarrollo de movimientos radicales atraves de las fronteras de raza, clase y idioma.

Recomendamos que gente habla hispana contactan a autonomistas de color de Houston (pg 7) y la alianza estudiantil chican@ (pg 9). Si hay otros grupos en Houston que estan organizandose con los principios de Accion Global de los Pueblos (www.agp.org), nos gustaria encontrar mas informacion sobre organizaciones suyas y publicar una fanzine de rescursos radical para la comunidad habla hispana. Si tienes interese, manda un email a alam@riseup.net

Sabemos que hay initiatives importantes tomado por la comunidad habla hispana incluyendo la campaña de la coalicion por la reforma de inmigracion justa, que tiene reuniones cada lunes a las 7 en el edificio del AFL-CIO (2506 Sutherland entre Telephone y Wayside) ademas a lo mejor hay muchas cosas pasando que no sabemos. Por mas informacion sobre el coalicion por la reforma de inmigracion justa, y otras organizaciones manda e-mail a dignidad@hotmail.com

Where The Alarm comes from:

The Alarm as the title of a publication is not a new invention. It was lifted from the anarchist newspaper published by Albert Parsons in Chicago in the end of the 19th century. Albert Parsons was born in Alabama, fought for the confederacy during the US civil war, and moved to Texas afterwards, where he became a radical Republican. He published a journal called *The Spectator* in Waco, which advocated for equal rights for blacks. After narrowly avoiding being lynched, he moved to Chicago. He is most famous as the husband of Lucy Parsons, and as one of the Haymarket Martyrs, anarchist labor organizers who were executed by the state. He is a personal inspiration, demonstrating humanity's capacity to grow and overcome the oppressive environments we are smothered with.

Anti Racist Action

The Anti Racist Action (ARA) is a grassroots group dedicated to ending fascism on all fronts. The ARA is self-reliant, we do not rely on law enforcement to do our work for us, we believe it is our responsibility to confront fascism in our own neighborhoods.

The Houston ARA Chapter is still very young, and as of now our main goals include networking with other chapters (mainly in Texas) and organizing and establishing ourselves as a permanent chapter.

If anyone is interested in becoming apart of Houston ARA, they are more than welcomed to come to our monthly open meeting @ Ball Park on the first Saturday of every month, at 3 PM.

Or contact us at

A carnival celebrates temporary liberation from the established order; it marks the suspension of all hierarchy, rank, privileges, norms and prohibitions. Crowds of people on the street seized by a sudden awareness of their power and unification through a celebration of their own ideas and creations. (<http://rts.gn.apc.org/evnl.htm>)

The TAZmaniac Sound System seeks to shatter the foundations of oppression by synchronizing bass and funky beats with the sway of people's hips and the shuffle of their feet. Turned off by the self-righteous indignation of Old Left "protests," TAZmaniacs aim to make dissidence funky through the facilitation of celebratory protests. Want the TAZmaniacs to liven up your event? Raise your fist, shake your hips, and send an email to glidown@riseup.net. BASS!

community came together in August of 2004 to form the Houston Radical Women's Group. Usually with any community attempting radical social change and subversion of the dominant paradigm there exists a need for women, people of color and other traditionally oppressed groups to create their own "safe space" within their community as a means to deal with the harmful effects of undergoing socialization in a society that values masculinity, domination and whiteness in turn promoting fear of intimacy, competition, self-loathing and in general a psychologically unstable society where rape and violence are woven into the fabric of existence and high levels of fear and distrust make it difficult to interact with fellow human beings in a meaningful way. Sadly even within radical communities, sexism, homophobia and sexual assault still remain a problem. Members of our group are attempting to confront all these problems while building meaningful relationships with each other. We find that many of us have worked together on actions and projects yet never taken the time to truly get to know one another as friends. Building this support network and creating a safe space for survivors comes in many forms, we meet on a consistent bi-weekly basis every other Sunday usually alternating between multi-topic discussions, film showings and fun outings such as picnics in the park or bowling. Past gatherings have consisted of crafts making, discussion on safe sex and masturbation, roller derby, coping with and confronting sexual assault in radical communities and beyond. Certain members also volunteered to help organize an event for the Mothers of the Disappeared Women of Juarez in October.

We understand that gender means more than what is what is between your legs and welcome all persons who identify as women. For more information on our upcoming meetings please write or call:

~Honoring Women and Their Struggles While Creating Sisterhood~

**Houston Autonomous People of Color
(Draft Mission Statement)**
**We are a movement of, by and for people of color united for two
primary objectives:**

1: The mission of this group is to unify, create alliances and organize people of color to address and understand the dynamics of oppression and how it is internalized in our communities on a national and international level.

2: To address and respond to the needs of oppressed communities by creating tools and institutions of empowerment through culture, education, direct action, media, art, health/healing and creative support systems that will increase self determination and self awareness in people of color communities.

Save the date now! The national Anarchist People of Color conference is slated to be held in Houston October 7-9 2005. If you would like more info on the conference you can write conference@illegalvoices.org. The Radical Encuentro Camp has become a radical Tejas institution with 7 camps in 4 years.

The Radical Encuentro Camp organizes to build solidarity amongst diverse communities, grassroots organizers and activist groups in Tejas and beyond. Through the use of popular education and connecting our struggles, people develop skills, strategies and tactics to further movements and to move them from resistance to revolutionary consciousness and actions.

Ad hoc organizing groups hold REC camps in different parts of Tejas twice a year in urban or rural settings. Past camps have taken place in Huntsville, Houston, Austin, San Marcos and Dallas. Upcoming camps are tentatively scheduled in Fort Worth and San Antonio. Workshops and discussions make up the 2 or 3 day weekend schedules. Childcare and food are generally included.

The website comes and goes when camps are scheduled, and the email account is also checked most often when camps are happening:

Chicana/o Student Alliance

2002-2005

Politics:

The 1960's saw the birth of a movement for justice- the Chicano Movement. Many different members of society, from farm workers to high school students, took direct action in the struggle for human and civil rights, equal education, and gender equality.

It is in this spirit that the Chicana/o Student Alliance (CSA) continues to fight for social justice and dignity for our communities. We recognize that much has changed in the last 35 years to improve the overall condition of our raza.

However, conservative agendas continue to produce racist immigration laws, keep schools in the barrio substandard, and in general work against the will of our people.

Community Control:

We believe that true empowerment for our people can only come about through direct control of institutions in our communities.

With that in mind, the CSA dedicates itself to fight against racism and oppression, help politicize our gente, and move our youth into a path of self-determination, rather than self-destruction.

Identity:

In this modern melting pot society, mainstream media and pop culture play a large role in defining identity.

Out of convenience, our people are labeled Hispanic and Latino. The CSA believes these terms deny us the vital link to our native roots.

As Chicano/Mexicano people, we understand that we are the descendants of the native people of this continent. Learning about and embracing this aspect of our heritage gives us balance to live our daily lives.

2.S.A. meets once a week during the academic year. Meetings are held on Thursdays at 7:30 pm in the University Center (UC) at the University of Houston.

"menconfrontingpatriarchy"

What is patriarchy? What are we fighting against? A few words from our first meeting: subjugation, domination, gender binary, gender roles, alienation, subtle, pervasive, affects interactions, reinforced language, male privilege, "might makes right", very old -ism, normalized male dominance/violence, affects all of us - "both sides of the fence", internal/external, systematic, male=normal (intelligent, wise, strong, etc), imperialistic.

menconfrontingpatriarchy had its first meeting on February 12. Just as we are beginning to examine the ways in which we as men contribute to patriarchy, we are also formulating the nature of our organization. As we stand now will we be a discussion group, but will also organize actions, hold socials and skillshares, and plan to link up with other organizations. Meetings are open to men who want to confront patriarchy and are currently held bi-weekly on Saturdays at 5p.m. at LaBranch and Wentworth. We have a listserve and if you are interested contact:

The HMC Mission Statement

The Houston Independent Media Center is a community based organization committed to using media production and distribution as a tool for promoting social and economic justice. It is our goal to give voice to those people under-represented in the mainstream media. With an emphasis on local issues, we will seek connections to global systems. We intend to illuminate and analyze issues that are affected by the increasing corporate domination of society and the subsequent erosion of democracy and equal protection under the law. We will strive to develop the arts, culture, entertainment, education, forums and conferences. We seek to generate alternatives to the current biases inherent in profit-based and corporate media and to contribute to the development of an equitable and sustainable society.

Dirty South Earth First! was formed in the summer of 2003 with the sole purpose of confronting the

Maxxam Corporation. Maxxam, through its California based subsidiary, Pacific Lumber is clear-cutting the last remaining old-growth forests of this country. For years citizens of the affected areas as well as environmentalists have been Fighting pacific lumber in the forests while

the men and women who make all the decisions (and most of the money) hide here in Houston, out of reach of those protests. DSEF! has waged a

non-violent yet direct and confrontational pressure campaign against the people responsible for his environmental devastation. Join us as we tell Maxxam that we know what happens in the forests of California and that they are not going to get away with it!

Hurricane Collective
because capitalism really blows

The Hurricane Collective is a loose organization of individuals with anarchist ideas working together to cultivate resistance to the oppressive weight of capitalism and the state and to build a better world. Our group evolved out of two friends distributing radical literature and propaganda at shows. Towards the end of 2004, we expanded our focus, helping organize the Counter-Inaugural Protest on January 22, 2005, and gave our group a name. Our group is small and we live out west near Katy. Our emphasis on decentralization and autonomy means we would like to see more small groups forming instead of people simply tagging on to big groups that already exist. We are open to working with other groups and individuals with similar principles and aims. Currently we are working on organizing several actions for the second anniversary of the invasion of Iraq, including a Bike Bloc for the march and rally on March 19 and a public education action on the 20th. We also continue to distribute literature and are always looking for shows and events to table at as well as books, flyers and zines to distribute.
